

COVID-19 Safety Plan (CSP) for Heartwood Charter School Safe Return to In-Person Instruction and Continuity of Services (SRIPICS)

Date: Updated September 24, 2022

This CSP is designed to control and prevent exposures to the Covid-19 virus at the **Heartwood Charter School** ("School") **Bothin Resource Center** ("Center").

This document consists of the following components:

Part 1: COVID-19 Safety Plan Specific Measures and Procedures

Part 2: Cal OSHA COVID-19 Protection Plan (CPP)

Attachment 1: Center Cleaning and Safety Protocols and Practices

Attachment 2: Faculty and Staff Daily Health Screening Form

Attachment 3: Student Daily Health Screening Form

Attachment 4: Scenarios and Template Communications

Attachment 6, Actions for Suspected or Confirmed Case

Attachment 7: Template Communications

Appendix A: Form for Identification of COVID-19 hazards

Appendix B: Form for Periodic Inspections

Appendix C: Form for Investigating COVID-19 cases

Appendix D: Form for COVID-19 Training Roster

Appendix E: MCOE Decision Tree

Appendix F: References

Part 1: COVID-19 Safety Plan Specific Measures and Procedures

Authority and Responsibility

Stephanie Felton-Priestner, School Executive Director, has overall authority and responsibility for implementing the provisions of this CSP. In addition, all faculty and staff and parents are responsible for implementing the CSP in their assigned work areas, and for using safe work practices, following all directives, policies and procedures, and assisting in maintaining a safe work environment. All staff is responsible for ensuring staff, students and parents receive answers to questions about the program in a language they understand.

Points of Contact

Stephanie Felton-Priestner	Executive Director	stephanie@heartwoodcharterschool.org	415-488-9572
Jeremiah Watterson	Education Specialist	jeremiah@heartwoodcharterschool.org	

Visitors, Volunteers and Vendors

Non-essential visitors, including parent volunteers will be limited. Essential workers will be required to adhere to all health and safety guidelines. Any substitutes, contractors, visitors or volunteers working directly with students should be fully vaccinated or must be tested weekly. Visitors must follow masking and distancing requirements. The visitor must pass the health screening and be always masked when near students.

School Entry and Exit

Every parent/caregiver will monitor children daily and perform a health screening before arrival to an open resource center. A written or on-line report is not required, but symptomatic students must remain home and the symptoms must be reported to the school.

Staff and faculty will also self-screen daily and shall remain home when symptomatic. Staff will be encouraged to obtain a COVID test if symptoms persist. (Please see Health Screenings, below as well as Attachment #2 Faculty Health Screening and Attachment #3 Student Health Screening)

On-campus gatherings such as school assemblies and festivals, as well as business meetings, may proceed with masking required when indoors or in close proximity. Indoor gatherings of more than 100 people are prohibited at this time.

Face Coverings and PPE

Heartwood Charter School will enforce the Public Health face covering requirements. Face coverings for all staff, students, visitors and volunteers are recommended but not required per health and safety guidelines. When worn, face coverings shall be minimum 3 ply, well fitting, and without exhalation valves.

Face coverings shall be worn by students who have been exposed to Covid but are not symptomatic, and whether or not they are vaccinated..

Extra face coverings will be made available to those who need them.

Health Screenings

Symptomatic staff will report the symptoms to the school and shall remain home while symptoms persist. Staff will be encouraged to test when symptomatic. See **Attachment 2, Faculty and Staff Daily Health Screening** for screening protocols. If a staff member does not pass the health screening, they will educate students remotely until they are able to pass the Health Screening and Return to Work Criteria.

All parents or guardians will conduct the daily screening for all students for each school day the student will be attending the Center. **Symptomatic students** will report the symptoms to the school and shall remain home while symptoms persist. Parents will be encouraged to obtain a Covid test for students if symptoms develop. See **Attachment 3, Student Daily Health Screening** for screening protocols. If students are sick and cannot attend school in person, the student will be provided materials or support for remote learning until they are able to pass the Health Screening and return to class.

If students are found to be symptomatic or ill during the day, the protocols described in **Attachment 1, School Cleaning and Safety Protocols and Practices** will be followed, and they will go to the designated Isolation area at the Center and wait for transportation.. If staff or students are found to test positive, they will notify the School.

Confirmed cases of Covid-19 will be reported to the Marin County Public Health and the communication template will be followed as described in **Attachment 4, Scenarios and Template Communications.**

Testing Protocol

Since Heartwood has previously reopened at a time of lower risk level, Cal/OSHA minimum testing requirements apply.

Condition of Individual	Testing for Students	Testing for Staff
Asymptomatic	No requirement for asymptomatic testing provided there is no suspected or known exposure. Test if there has been a known or suspected exposure.	No requirement for asymptomatic testing provided there is no suspected or known exposure. Test if there has been a known or suspected exposure.
Symptomatic	Students shall immediately vacate school or refrain from accessing the Center. Students shall obtain a test. If test result is negative, student may return to Center after 24 hours after abatement of symptoms. If result is positive, student must quarantine and may return after 24 hours after abatement of symptoms.	Staff shall obtain testing after identifying symptoms. Staff shall obtain testing after suspected exposure to symptomatic individual. Tests shall be obtained in accordance with the recommended time period. If result is positive, staff may return after 24 hours after abatement of symptoms.
Response to Suspected Exposure	Students shall obtain a test and negative result before returning to Center.	Staff shall obtain testing and a negative result before returning to Center.

Physical Distancing

Physical distancing is not required in accordance with current CDC and CDPH recommendations. Heartwood Charter School may use the natural outdoor spaces at the Bothin Resource Center (designed as a youth camp) as outdoor classrooms, or may convene indoors.

Plastic barriers, clear screens and privacy boards will not be used in outdoor or indoor classrooms. **Lunch** and **recess** will be conducted in outdoor or indoor areas.

Masking is not required for outdoor gatherings, and is optional but recommended for indoor gatherings.. .

Healthy Hygiene Practices

Faculty and staff Hygiene and cleaning practices are described in **Attachment 1, School Cleaning and Safety**

Protocols and Practices. All classrooms are equipped with outdoor handwashing stations, with appropriate supplies for regular handwashing.

After an Exposure

Testing will be performed in accordance with **Testing Protocol**, above.

Asymptomatic students must test after a suspected exposure. Asymptomatic students with a negative test may return to the Center using face coverings while near other students or staff. Students with a positive test must refrain from accessing the Center until a negative result is obtained..

Symptomatic students must remain home until symptoms abate for 24 hours and a negative test is obtained. Students under isolation or quarantine will have access to distance learning resources.

Asymptomatic staff must test after a suspected exposure. Asymptomatic students with a negative test may return to the Center using face coverings while near other students or staff. Students with a positive test must refrain from accessing the Center until a negative result is obtained..

Symptomatic staff must remain home until symptoms abate for 24 hours and a negative test is obtained.

Staff under isolation or quarantine will be allowed to work remotely or have a substitute fill in for their duties.

For a suspected or confirmed case of COVID-19, the actions in Attachment 6, Actions for Suspected or Confirmed Case shall be followed. For a symptomatic individual, the individual will be sent home and advised to test.

Quarantine

Students less than 18 years of age, regardless of vaccination status, who have been exposed to someone with COVID-19, and who is not symptomatic, do not need to quarantine but should test and wear a face covering to school for a period of 10 days.

Students who become symptomatic should isolate and obtain a test. Isolation should continue until 24 hours after symptoms abate and a negative test is obtained.

Staff who were exposed to someone with COVID-19 in a high risk setting and are unvaccinated, incompletely vaccinated, or eligible for a booster but haven't received one yet, you should **quarantine for at least 5 days** after last exposure, and quarantine can end after Day 5 if symptoms are not present and a negative test result is obtained.

Students and staff may return to the Center when the following CDPH criteria has been met:

- At least 24 hours has passed since resolution of symptoms and fever (without medications), **AND**
- They have a negative test for SARS-CoV-2, **OR** a healthcare provider has provided documentation that the symptoms are typical of their underlying chronic condition (e.g., allergies or asthma) **OR** a healthcare provider has confirmed an alternative named diagnosis (e.g., Streptococcal pharyngitis, Coxsackie virus), **OR** at least 10 days have passed since symptom onset.

Outbreak response: In the case of 3 or more cases within a cohort in a 14-day period ("Outbreak"), all staff will be tested under Outbreak conditions. The community will be notified, a staff member will be assigned to coordinate, and contact tracing will be recorded. Cleaning will be arranged and excluded groups will be identified and notified. Physical distancing will be implemented. Any required closure and reopening will be conferred with the LHD. Notify the community and implement distance learning in the event of school closure.

Major Outbreak response: In the case of 20 or more cases in a 14-day period ("Major Outbreak"), all staff will

be tested under Outbreak conditions. The community will be notified, a staff member will be assigned to coordinate, and contact tracing will be recorded. Cleaning and disinfection will be arranged and excluded groups will be identified and notified. Any required closure and reopening will be conferred with the LHD. Notify the community and implement distance learning in the event of school closure. Return to Center criteria will apply after 14-day quarantine.

Communications Plans

Various conditions and exposure events may need to be communicated to the community in accordance with CDPH guidelines. Sample communications are shown in **Attachment 8, Template Communications**.

Staff and Family Training

Heartwood Charter School will train Center staff on this plan update and will conduct refresher training after significant revisions. Engineering Controls

Clear screens and privacy boards will not be used in classrooms. We will utilize space reconfiguration, physical distancing, and occupancy minimization. We will continue to update our spaces in response to updated guidance.

Consultation on Plan Development

The Heartwood Charter School Covid Safety Plan was originally completed with input from staff, parents and the board members on October 6, 2020. The plan was posted on our website and shared with parents. The School Center was reopened for limited in-person instruction in October and November 2020. The Plan has been updated since that time and has been posted on our website.

Part 2: Cal OSHA COVID-19 Prevention Plan (CPP)

Identification and Evaluation of COVID-19 Hazards

The following Screening and Hazard Identification Procedures will be implemented with the following procedures:

- **Part 1, COVID-19 Safety Plan Specific Procedures**, which outlines prevention and control measures practiced ensuring safety at the site.
- Evaluate students' and employees' potential exposures to all persons at, or who may enter, our workplace.
- Conduct workplace-specific evaluations using the **Appendix A: Form for Screening and Identification of COVID-19 Hazards**.
- Review applicable orders and general and industry-specific guidance from the State of California, Cal/OSHA, and the local health department related to COVID-19 hazards and prevention.
- Periodically reevaluate existing COVID-19 prevention controls in our workplace and the need for different or additional controls.
- Conduct periodic inspections using the **Appendix B: COVID-19 Inspections form** as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with our COVID-19 policies and procedures.

Specific Control Measures

We will implement the following in our workplace:

- Specific control measures as identified in **Part 1, COVID-19 Safety Plan Specific Procedures**, above in this document.
- Conduct periodic workplace-specific evaluations using the **Appendix A: Identification of COVID-19 Hazards** form.
- Evaluate employees' potential workplace exposures to all persons at, or who may enter, our workplace.
- Review applicable orders and general and industry-specific guidance from the State of California, Cal/OSHA, and the local health department related to COVID-19 hazards and prevention.
- Evaluate existing COVID-19 prevention controls in our workplace and the need for different or additional controls.
- Conduct periodic inspections using the **Appendix B: COVID-19 Inspections form** as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with our COVID-19 policies and procedures.

Employee participation

Employees and their authorized employees' representatives are encouraged to participate in the identification and evaluation of COVID-19 hazards by observation and reporting to the Point of Contact.

Employee screening

We screen our employees by:

- Self-screening before and during each workday in accordance with CDPH standards.
- Self- and peer-monitoring throughout the workday.

- Failure of self-screening or development of symptoms will result in employee staying or returning home.

Control of COVID-19 Hazards

Physical Distancing

Physical distancing is not required regardless of vaccination status with the following exceptions:

- School will evaluate whether physical distancing is required during an outbreak (3 or more cases in an exposed group of employees).
- School will implement physical distancing and barriers (in close indoor situations) during a major outbreak (20 or more cases in an exposed group of employees)

In addition, during outbreaks, if distancing is deemed to be required, the following physical distancing protocols will be followed:

- All staff will stay 6 feet apart and 6 feet from students, or as far apart as possible.
- Plan occupancy so that there will be sufficient space to allow 6-foot distancing.
- The only exception to 6 feet distancing standard is to assist a sick student when needed.
- Staggered arrival and departure times.
- Restricted travel routes and marked waiting areas.
- Closure of hallways and unnecessary areas.

Face Coverings

Face coverings are required in all indoor areas. We provide clean, undamaged face coverings and ensure they are properly worn by employees over the nose and mouth when indoors, including non-employees, and where required by orders from the California Department of Public Health (CDPH) or local health department. Face coverings are not required outdoors.

The following are exceptions to the use of face coverings in our workplace:

- When an employee is alone in a room or vehicle.
- While eating and drinking at the workplace, provided employees are at least six feet apart and outside air supply to the area, if indoors, has been maximized to the extent possible.
- Employees who cannot wear face coverings due to a medical or mental health condition or disability, or who are hearing-impaired or communicating with a hearing-impaired person. Alternatives will be considered on a case-by-case basis.
- Any employee not wearing a mask will immediately seek a replacement.
- When outdoors.

Any employee not wearing a face covering, face shield with a drape or other effective alternative, or respiratory protection, for any reason, shall be at least six feet apart from all other persons until a mask can be provided.

Vaccines

Face coverings are required in all indoor areas, regardless of vaccine status. Exceptions are noted above in Face Coverings. At this time, vaccinations are not allowable substitutes for face masks in indoor or enclosed areas.

Testing

The school will offer testing at no cost to employees, and will be allowed to obtain a test during paid time, under the following conditions:

- Unvaccinated employee who is symptomatic
- Unvaccinated employee who has been exposed
- Unvaccinated employees after an outbreak at school
- Vaccinated employees after exposure and becoming symptomatic
- All employees after an outbreak at school

Engineering controls

At this time School **does not utilize engineering controls**, such as barriers, but instead adheres to masking and natural ventilation or outdoor settings. If outdoor air quality is not sufficient, the Center will be closed for the duration of poor air quality.

Cleaning and disinfecting

We implement the following cleaning and disinfection measures for frequently touched surfaces:

- All class, bathroom and work surfaces are cleaned and disinfected daily.
- Cleaning supplies are monitored and reordered as necessary.
- Information regarding COVID-19 is posted.

Shared tools, equipment and personal protective equipment (PPE)

PPE must not be shared, e.g., gloves, goggles, and face masks or shields.

Frequently used items will be regularly disinfected.

Hand sanitizing

In order to implement effective hand sanitizing procedures, we will follow the procedures in Attachment 1, Center Cleaning and Safety Protocols. The protocols include the following:

- Separate handwashing facilities for each classroom.
- Handwashing schedules and procedures.
- Providing an effective hand sanitizer, and prohibit hand sanitizers that contain methanol (i.e. methyl alcohol).
- Encouraging handwashing for at least 20 seconds each time.

Personal protective equipment (PPE) used to control employees' exposure to COVID-19

Masks are required for indoor occupancy and will be provided if a suitable mask is not being worn by any staff or students. We evaluate the need for PPE (such as gloves, goggles, and face shields) as required by CCR Title 8, section 3380, and provide such PPE as needed.

We evaluate the need for respiratory protection in accordance with CCR Title 8 section 5144 if an outbreak occurs.

Outbreaks

Additional protective measures will be implemented in the case of an Outbreak or Major Outbreak:

- Physical distancing will be implemented in addition to masking requirements (see **Physical Distancing**, above):
- Testing will be encouraged for all employees.
- Use of barriers will be evaluated.
- Possible closure of Center for duration of Major Outbreak.

Correction of COVID-19 Hazards

Unsafe or unhealthy work conditions, practices or procedures will be documented on the **Appendix B: Form for periodic COVID-19 Inspections**, and corrected in a timely manner based on the severity of the hazards, as follows:

- The severity of the hazard will be assessed, and correction time frames will be assigned accordingly.
- Individuals will be identified as being responsible for timely correction.
- Follow-up measures will be taken to ensure timely correction.

Investigating and Responding to COVID-19 Cases

This will be accomplished by using the **Appendix C: Form for Investigating COVID-19 Cases**.

Employees who had potential COVID-19 exposure in our workplace will be:

- Offered opportunity to obtain COVID-19 testing at no cost during their working hours.
- The information on benefits described in Training and Instruction, and Exclusion of COVID-19 Cases, below, will be provided to them.

System for Communicating

Our goal is to ensure that we have effective two-way communication with our employees, in a form they can readily understand, and that it includes the following information:

- Employees should report any symptomatic staff or students to the Points of Contact.
- Employees may report symptoms and hazards without fear of reprisal.
- Our procedures or policies for accommodating employees with medical or other conditions that put them at increased risk of severe COVID-19 illness.
- Sources for COVID-19 testing.
- In the event we are required to provide testing because of a workplace exposure or outbreak, we will communicate the plan for providing testing and inform affected employees of the reason for the testing and the possible consequences of a positive test.
- Information about COVID-19 hazards employees (including other employers and individuals in contact with our workplace) may be exposed to, what is being done to control those hazards, and our COVID-19 policies and procedures.

Training and Instruction

We will provide effective training and instruction that includes:

- Our COVID-19 policies and procedures to protect employees from COVID-19 hazards.
- Information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws.
- The fact that:
 - COVID-19 is an infectious disease that can be spread through the air.
 - COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth.
 - An infectious person may have no symptoms.
- Methods of physical distancing.
- The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.
- Proper use of face coverings and the fact that face coverings are not respiratory protective equipment - face coverings are intended to primarily protect other individuals from the wearer of the face covering.
- COVID-19 symptoms, and the importance of obtaining a COVID-19 test and not coming to work if the employee has COVID-19 symptoms.

Appendix D: COVID-19 Training Roster will be used to document this training.

Exclusion of COVID-19 Cases

Where we have a COVID-19 case in our workplace, we will limit transmission by:

- Ensuring that COVID-19 cases are excluded from the workplace until our return-to-work requirements are met.
- Excluding employees with COVID-19 exposure from the workplace for 14 days after the last known COVID-19 exposure to a COVID-19 case.
- Continuing and maintaining an employee's earnings, seniority, and all other employee rights and benefits whenever we've demonstrated that the COVID-19 exposure is work related. Employees will be allowed sick leave benefits, testing at School cost, retention of job and work status for a period
- Providing employees at the time of exclusion with information on available benefits.

Reporting, Recordkeeping, and Access

It is our policy to:

- Report information about COVID-19 cases at our workplace to the local health department whenever required by law, and provide any related information requested by the local health department.
- Report immediately to Cal/OSHA any COVID-19-related serious illnesses or death, as defined under CCR Title 8 section 330(h), of an employee occurring in our place of employment or in connection with any employment.
- Maintain records of the steps taken to implement our written COVID-19 Prevention Program in

accordance with CCR Title 8 section 3203(b).

- Make our written COVID-19 Prevention Program available at the workplace to employees, authorized employee representatives, and to representatives of Cal/OSHA immediately upon request.
- Use the **Appendix C: Investigating COVID-19 Cases** form to keep a record of and track all COVID-19 cases. The information will be made available to employees, authorized employee representatives, or as otherwise required by law, with personal identifying information removed.

Return-to-Work Criteria

- COVID-19 cases with COVID-19 symptoms will not return to work until all the following have occurred:
 - At least 24 hours have passed since a fever of 100.4 or higher has resolved without the use of fever-reducing medications.
 - COVID-19 symptoms have improved.
 - At least 5 days have passed since COVID-19 symptoms first appeared.
 - COVID-19 cases who tested positive but never developed COVID-19 symptoms will not return to work until a minimum of 5 days have passed since the date of specimen collection of their first positive COVID-19 test.
 - A negative COVID-19 test will not be required for an employee to return to work if the two criteria above are met.
 - If an order to isolate or quarantine an employee is issued by a local or state health official, the employee will not return to work until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period will be 10 days from the time the order to isolate was effective, or 14 days from the time the order to quarantine was effective.
-

Additional Consideration #1: Multiple COVID-19 Infections and COVID-19 Outbreaks

This section of CSP will apply if there are 3 or more COVID-19 cases at the Center within a 14-day period (“Outbreak”) and will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.

COVID-19 testing

- Under an Outbreak condition, we will provide COVID-19 testing to all employees in our exposed workplace except for employees who were not present during the period of an Outbreak identified by a local health department or the relevant 14-day period. COVID-19 testing will be provided at no cost to employees during employees’ working hours.
- COVID-19 testing consists of the following:
 - All employees in our exposed workplace will be immediately tested and then tested again one week later. Negative COVID-19 test results of employees with COVID-19 exposure will not impact the duration of any quarantine period required by, or orders issued by, the local health department.
 - After the first two COVID-19 tests, we will continue to provide COVID-19 testing of employees who remain at the workplace at least once per week, or more frequently if recommended by the local health department, until there are no new COVID-19 cases detected in our workplace for a 14-day period.
 - We will provide additional testing when deemed necessary by Cal/OSHA.

Exclusion of COVID-19 cases

We will ensure COVID-19 cases and employees who had COVID-19 exposure are excluded from the workplace in accordance with our CSP **Exclusion of COVID-19 Cases** and **Return to Work Criteria** requirements, and local health officer orders if applicable.

Investigation of workplace COVID-19 illness

We will immediately investigate and determine possible workplace-related factors that contributed to the COVID-19 outbreak in accordance with our CPP **Investigating and Responding to COVID-19 Cases**.

COVID-19 investigation, review and hazard correction

In addition to our CSP **Identification and Evaluation of COVID-19 Hazards** and **Correction of COVID-19 Hazards**, we will immediately perform a review of potentially relevant COVID-19 policies, procedures, and controls and implement changes as needed to prevent further spread of COVID-19.

The investigation and review will be documented and include:

- Investigation of new or unabated COVID-19 hazards including:
 - Our leave policies and practices and whether employees are discouraged from remaining home when sick.
 - Our COVID-19 testing policies.
 - Insufficient outdoor air.
 - Insufficient air filtration.
 - Lack of physical distancing.

- Updating the review:
 - Every thirty days that the outbreak continues.
 - In response to new information or to new or previously unrecognized COVID-19 hazards.
 - When otherwise necessary.
- Implementing changes to reduce the transmission of COVID-19 based on the investigation and review. We will consider:
 - Moving indoor tasks outdoors or having them performed remotely.
 - Increasing outdoor air supply when work is done indoors.
 - Improving air filtration.
 - Increasing physical distancing as much as possible.
 - Respiratory protection.
 - [describe other applicable controls].

Notifications to the local health department

- Immediately, but no longer than 48 hours after learning of three or more COVID-19 cases in our workplace, we will contact the local health department for guidance on preventing the further spread of COVID-19 within the workplace.
- We will provide to the local health department the total number of COVID-19 cases and for each COVID-19 case, the name, contact information, occupation, workplace location, business address, the hospitalization and/or fatality status, and North American Industry Classification System code of the workplace of the COVID-19 case, and any other information requested by the local health department. We will continue to give notice to the local health department of any subsequent COVID-19 cases at our workplace.

Additional Consideration #2: Major COVID-19 Outbreaks

This section of CSP will be followed should the School experience 20 or more COVID-19 cases within a 30-day period (“Major Outbreak”) and will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.

COVID-19 testing

Under a Major Outbreak condition, we will direct staff to twice per week COVID-19 testing, or more frequently if recommended by the local health department, to all employees present at our exposed workplace during the relevant 30-day period(s) and who remain at the workplace. COVID-19 testing will be provided at no cost to employees during employees’ working hours.

Exclusion of COVID-19 cases

We will ensure COVID-19 cases and employees with COVID-19 exposure are excluded from the workplace in accordance with our CSP **Exclusion of COVID-19 Cases** and **Return to Work Criteria**, and any relevant local health department orders.

Investigation of workplace COVID-19 illnesses

We will comply with the requirements of our CPP **Investigating and Responding to COVID-19 Cases**.

COVID-19 hazard correction

In addition to the requirements of our CSP **Correction of COVID-19 Hazards**, we will take the following actions:

- We will evaluate whether to halt some or all operations at our workplace until COVID-19 hazards have been corrected.
- We will determine the need for a respiratory protection program or changes to an existing respiratory protection program under CCR Title 8 section 5144 to address COVID-19 hazards.
- In buildings or structures with mechanical ventilation, we will filter recirculated air with Minimum Efficiency Reporting Value (MERV) 13 or higher efficiency filters if compatible with the ventilation system. If MERV-13 or higher filters are not compatible with the ventilation system, we will use filters with the highest compatible filtering efficiency. We will also evaluate whether portable or mounted High Efficiency Particulate Air (HEPA) filtration units, or other air cleaning systems would reduce the risk of transmission and implement their use to the degree feasible.
- Implement any other control measures deemed necessary by Cal/OSHA.

Notifications to the local health department

We will comply with the requirements of our Multiple COVID-19 Infections and COVID-19 Outbreaks-Notifications to the LHD.

Additional Consideration #3: COVID-19 Prevention in Employer-Provided Housing

(Not applicable)

Additional Consideration #4: COVID-19 Prevention in Employer-Provided Transportation to and from Work

(Not applicable)

Attachment 1: Campus Cleaning and Safety Protocols and Practices

FACULTY AND STAFF TRAINING

Prior to returning to in-person instruction all school staff and faculty will complete training in health and safety practices and protocols, including:

COVID Review

COVID 19 Transmission and prevention:

- *Proper handwashing: when, how
- *Proper use of a mask: when, how, types
- *Principles of COVID: modes of transmission, most vulnerable, best practices to keep yourself and others safe

Personal Health

Daily Health Survey:

- When to stay home (symptom list)
- When to see the Doctor
- Scenarios (chart)

Integrated Pest Management Training

IPM and chemical safety training

- Clean, Sanitize, Disinfect
- When to Clean, Sanitize and Disinfect (chart)
- How to Clean, Sanitize and Disinfect
- What cleansers and disinfectants are we using?
- Hand Sanitizer is for humans-therefore a topical antiseptic and FDA not EPA
- PPE
- Labels
 - *Signal word: Caution, Warning, Danger
 - *Ingredients
 - *Precautionary statements
 - *Storage and Disposal
 - *First Aid
 - *Directions for use (what you are using it for should be listed)

SANITATION PROTOCOL FOR CLASSROOMS

- Handwashing stations have been installed by every classroom.
- Soap and cleaning supplies are provided at every handwashing station.
- Hands will be washed often for at least 20 seconds with soap.
- Handwashing at the beginning of the day, before mealtimes, after recess, after using the restroom, and as needed.
- FDA approved hand sanitizers with at least 60% ethanol or 70% isopropanol will be used when there is not access to water.
- Cleaning products are used that meet the Environmental Protection Agency (EPA)'s approved for use against COVID19 list.
- Bathrooms and indoor spaces are cleaned daily, and frequently touched surfaces are cleaned daily or more frequently as needed.
- Meals will be eaten outdoors when possible.
- School hours and/or other procedures have been modified to provide adequate time for a regular, thorough cleaning, product stocking, or other measures.
- Staff is provided adequate time to implement cleaning practices before and after shifts.

PROTOCOL FOR ILL STUDENTS OR STAFF

- All staff and families must self-check for symptoms of COVID19 or other illnesses prior to arriving at school.
- Staff and families will notify the school if they are ill.
- Employers and employees are aware that they can call Marin Public Health if a suspected exposure has occurred at 415-473-7191.
- If a student falls ill during the school day, they will go to the designated isolation area set up on campus and wait to be picked up.
- Marin County Public Health will be notified immediately at 415-473-7191 of any cases of COVID19 in the Heartwood community and the Marin County Public Health Protocols & Communication Template will be followed.
- If a student or staff member is diagnosed with COVID-19, Marin County Public Health will provide assistance in the assessment of potential worksite exposures, and any recommended testing, quarantine, or isolation instructions.

HEALTH ADDENDUM TO THE HEARTWOOD CHARTER SCHOOL PARENT HANDBOOK

- Parents agree to abide by all Marin Public Health guidelines.
- Parents agree to check their family members' health daily.
- Parents agree to keep their child(ren) home when showing signs of illness.
- Parents agree to have a backup plan for pickup and childcare if their child becomes ill at school, and to be reachable by phone.
- Parents will wait in the car until the child(ren) being dropped off have been checked in by Heartwood faculty or staff.
- Parents will wait in the car while picking up children.
- Families are encouraged to keep a social contact diary to make tracing easy if a community member becomes infected.

HEARTWOOD
CHARTER SCHOOL

Attachment 2: Faculty/Staff Daily Health Screening

Faculty/Staff Full Name:

I affirm that I have been without fever for 24 hours without the use of fever-reducing medications and that I have not had symptoms of respiratory illness (cough, shortness of breath, or runny nose) in the past 24 hours?

Yes or No

Are you showing any of the following symptoms: fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, Headache, New loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea?

Yes or No

Have you been in close contact with anyone who has tested positive for COVID within the last 14 days?

Yes or No

Attachment 3: Student Daily Health Screening

Parent/Guardian Full Name:

Student Full Name:

Has your child had a temperature of 100.4 and higher over the past 24 hours?

Yes or No

Is your child showing any of the following symptoms: fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea?

Yes or no

Has your child been in close contact with anyone who has tested positive for COVID within the last 14 days?

Yes or No

Attachment 4: Scenarios and Template Communications

Scenario	Action	Communication
A student or staff member either exhibits COVID-19 symptoms, answers yes to a health screening question or has a temp of 100.4	<ul style="list-style-type: none"> Report information to administrator, send home Contact Healthcare provider/Public Health for testing (recommend testing) If positive, see Scenario #3; If negative, see Scenario #4 <p>School/Classroom OPEN</p>	No Action is needed.
A family member or someone in close contact with a student or staff member test positive for COVID-19.	<p>Report information to administrator, send home, quarantine for 14 days</p> <ul style="list-style-type: none"> Contact Healthcare provider/Public Health for testing (recommend testing) School/Classroom OPEN 	<p>To: Student Families and Staff</p> <p>Template Letter</p> <p>Household Member or contact w/ C19+..</p>
A student or staff member tests positive for COVID-19.	<ul style="list-style-type: none"> Report information to administrator, send home, isolate as per Public Health Families of Students and Staff: quarantine and contact Healthcare provider/ Public Health for testing Classroom CLOSED for 14 days from last exposure School Remains OPEN 	<p>To: Student Families and Staff</p> <p>-Phone call and</p> <p>-Template Letter. Confirmed</p> <p>C19+ in Cohort.</p>

Appendix A: Identification of COVID-19 Hazards

All persons, regardless of symptoms or negative COVID-19 test results, will be considered potentially infectious. Particular attention will be paid to areas where people may congregate or come in contact with one another, regardless of whether employees are performing an assigned work task or not. For example: meetings, entrances, bathrooms, hallways, aisles, walkways, elevators, break or eating areas, cool-down areas, and waiting areas.

Evaluation of potential workplace exposure will be to all persons at the workplace or who may enter the workplace, including coworkers, employees of other entities, members of the public, customers or clients, and independent contractors. We will consider how employees and other persons enter, leave, and travel through the workplace, in addition to addressing fixed work locations.

Person conducting the evaluation:

Date:

Name(s) of employee and authorized employee representative that participated:

Interaction, area, activity, work task, process, equipment and material that potentially exposes employees to COVID-19 hazards	Places and times	Potential for COVID-19 exposures and employees affected, including members of the public and employees of other employers	Existing and/or additional COVID-19 prevention controls, including barriers, partitions and ventilation

Appendix B: Form for Periodic COVID-19 Inspections

Date:

Name of person conducting the inspection:

Work location evaluated:

Exposure Controls	Status	Person Assigned to Correct	Date Corrected
Engineering			
Ventilation (amount of fresh air and filtration maximized)			
Administrative			
Physical distancing (Outbreak)			
Surface cleaning and disinfection (frequently enough and adequate supplies)			
Hand washing facilities (adequate numbers and supplies)			
Disinfecting and hand sanitizing solutions being used according to manufacturer instructions			
PPE (not shared, available and being worn)			
Face coverings (cleaned sufficiently often)			
Gloves			
Face shields/goggles			
Respiratory protection			

Appendix C: Form for Investigating COVID-19 Cases

All personal identifying information of COVID-19 cases or symptoms will be kept confidential. All COVID-19 testing or related medical services provided by us will be provided in a manner that ensures the confidentiality of employees, with the exception of unredacted information on COVID-19 cases that will be provided immediately upon request to the local health department, CDPH, Cal/OSHA, the National Institute for Occupational Safety and Health (NIOSH), or as otherwise required by law.

All employees' medical records will also be kept confidential and not disclosed or reported without the employee's express written consent to any person within or outside the workplace, with the following exceptions: (1) Unredacted medical records provided to the local health department, CDPH, Cal/OSHA, NIOSH, or as otherwise required by law immediately upon request; and (2) Records that do not contain individually identifiable medical information or from which individually identifiable medical information has been removed.

Date:

Name of person conducting the investigation:

Employee (or non-employee*) name:		Occupation (if non-employee, why they were in the workplace):	
Location where employee worked (or non-employee was present in the workplace):		Date investigation was initiated:	
Was COVID-19 test offered?		Name(s) of staff involved in the investigation:	
Date and time the COVID-19 case was last present in the workplace:		Date of the positive or negative test and/or diagnosis:	
Date the case first had one or more COVID-19 symptoms:		Information received regarding COVID-19 test results and onset of symptoms (attach documentation):	
Results of the evaluation of the potential COVID-19 case, all locations visited during the high-risk exposure period, and who may have been exposed (attach additional information):			

Notice given (within one business day, in a way that does not reveal any personal identifying information of the COVID-19 case) of the potential COVID-19 exposure to:			
All employees who may have had COVID-19 exposure	Date:		
	Names of employees that were notified:		
Independent contractors and other employers present at the workplace during the high-risk exposure period.	Date:		
	Names of individuals that were notified:		
What were the workplace conditions that could have contributed to the risk of COVID-19 exposure?		What could be done to reduce exposure to COVID-19?	
Was local health department notified?		Date:	

*Should an employer be made aware of a non-employee infection source COVID-19 status.

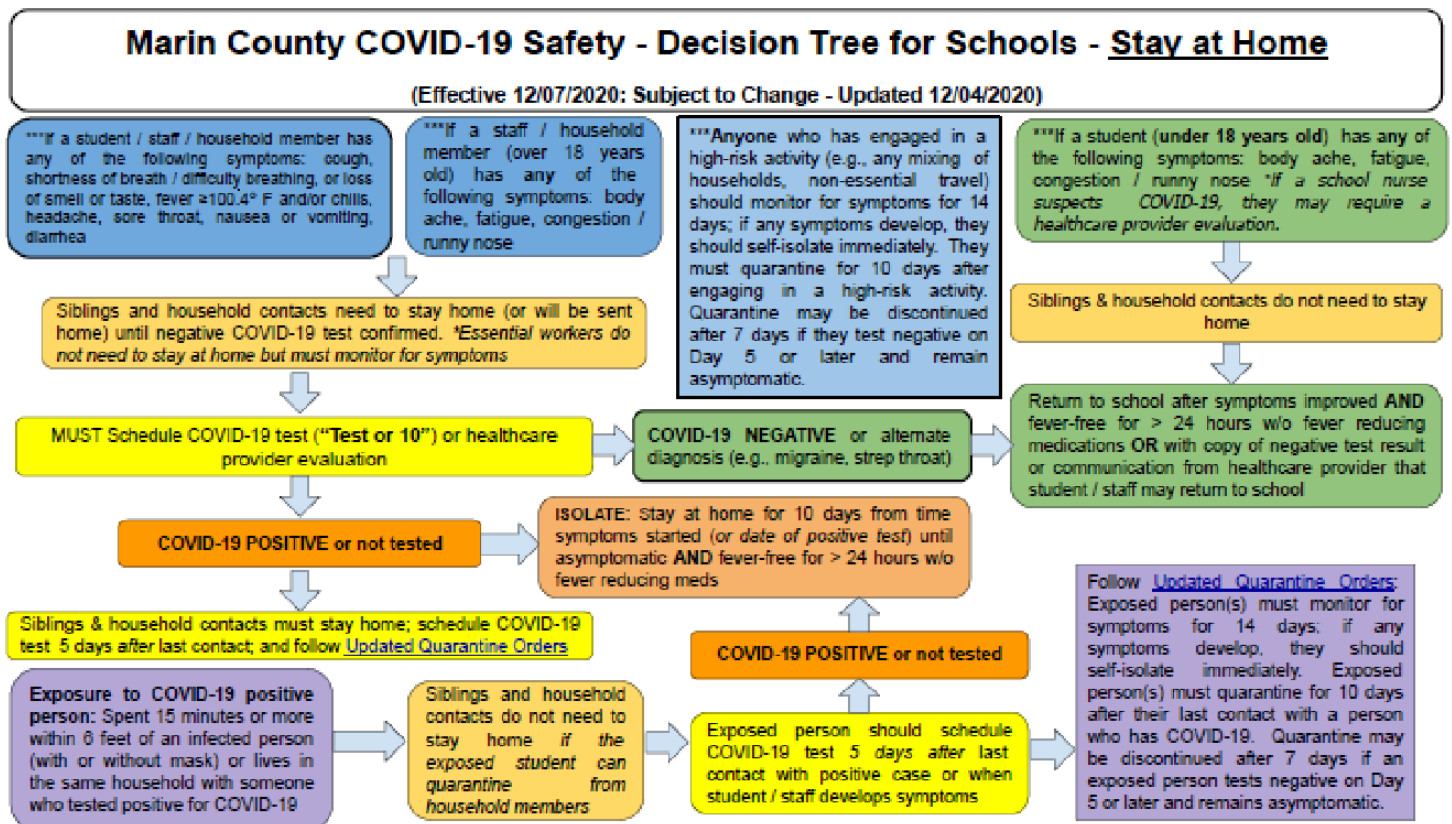

Appendix D: Form for COVID-19 Training Roster

Date:

Person that conducted the training:

Employee Name	Signature

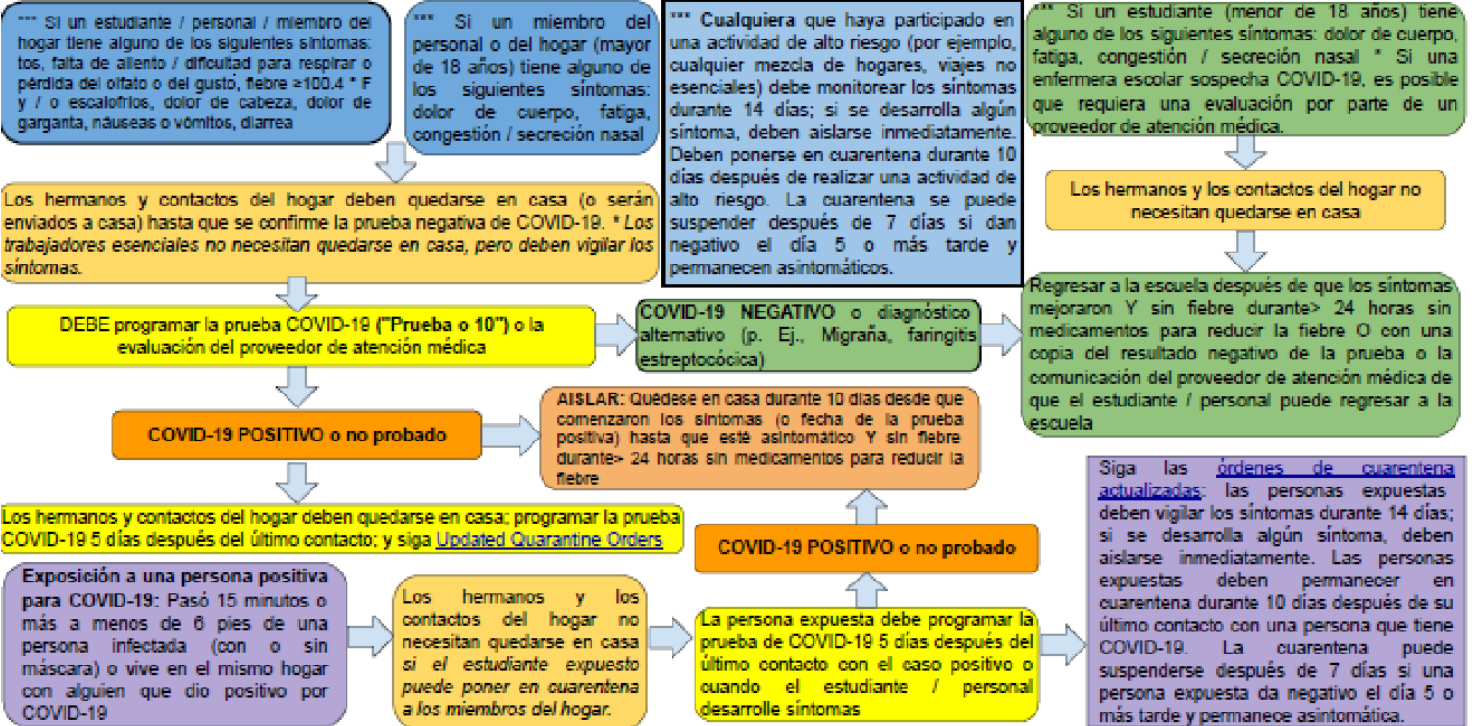

Appendix F: MCOE Decision Tree
